the specification of which

☐ is attached hereto.

☒ was filed on 08/25/00 as reissue application number 09 / 648,153 and was amended on _____ (If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

During a recent review of the patent, the Applicant discovered that the patent does not include claims that are directed to a method of operating the disclosed active matrix display device even though the specification makes it clear that the invention was intended to include this method.
